TAKE OFF ROCKET FUEL COLOSTRUM SUPPLEMENT FOR LAMBS

A standard, energy-rich colostrum supplement for lambs, with a high fat content to ensure that as much energy as possible is provided to the newborns who are fed it.

To be fed as a supplement to colostrum, for a boost in energy especially during their first week of life.

GET READY FOR LAMBING THIS YEAR WITH OUR LAMBING CHECKLIST

We understand that lambing can be a busy and stressful time for the farming community, and to try and make life easier for you, we've developed this checklist to help you be prepared with all the supplies and equipment for this year's lambing.

All you need to do is tick which products you need, place your order with a member of our team, and it will be delivered to your door or you can collect from our store.

FREE OVER TROUSER OFFER

Receive a free pair of waterproof StowAg branded over trousers with every completed form with an order total of over **£200 ex VAT***.

**One pair per account. Subject to availability.*

EWE-REKA LAMB MILK REPLACER

Shine Ewe-reka is made with ewe milk, the closest milk replacer to mothers milk!

To help improve lamb health and performance Shine Ewe-reka is made with whey products from ewe's milk.

- Shine Ewe-reka is Europe's number 1 selling lamb milk!
- Made with real ewes milk
- Tastes like own mother's milk encouraging a stronger drinking reflex
- Contains species specific antibodies to fight against sheep diseases
- Great lamb performance with weight gains of up to 550g per day
- Made with 4 vegetable oils and plant extracts to minimise clostridia bloat and scour in lambs.
- Reduced mortality rates
- Can be fed hot or cold
- Easy mixing and very palatable.

CRYSTALYX SHEEP EXTRA HIGH ENERGY

Crystalyx Extra High Energy is a feed tub that can be used all year round to provide supplementation for ewes, rams and lambs. High in protein, energy and with a full complement of minerals, trace elements and vitamins, Extra High Energy and forage can be all you need to operate a highly effective and profitable sheep rearing system.

Applications:

- Flushing and Topping
- Mid Pregnancy Feeding
- Weaning & Finishing Lambs

AVAILABLE IN 80KG & 22.5KG TUBS

3394	FAM30	5ltr	

Ten Top Tips For Weaning Orphan Lambs

1. Date mark each lamb with its birth date
2. Ensure each lamb has colostrum, delivered quickly in the right quantity
3. Quantity is 50mls per live weight per feed
4. 10 lambs per teat on systems
5. Ensure that accommodation is warm, dry and draught free
6. Lambs need fresh lamb creep daily. Spoiled feed depresses appetite
7. Lambs eating 250 grams of creep on 3 consecutive days are ready to wean
8. Do not feed hay or silage, stick to clean bright straw for optimum rumen development
9. Lambs need to achieve 3 times their birth weight then they are ready to wean
10. Wean after 35 days (Hence dated lambs).

Follow these points for a successful batch of lambs and remember they aren't pets!
